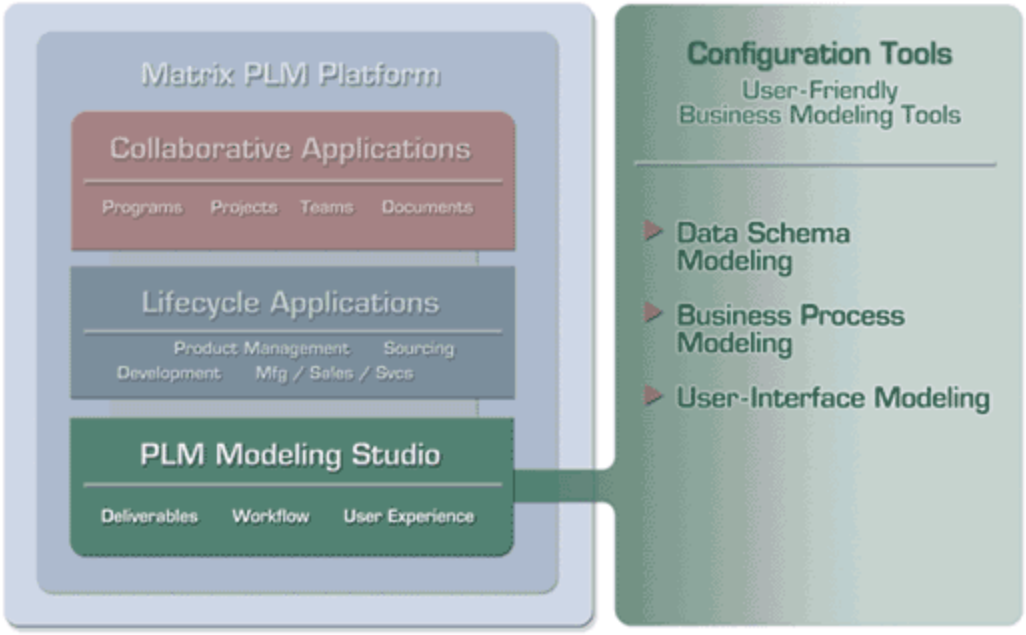
Matrix10
The Flexible PLM Environment

PLM Modeling Studio

Configure processes, interfaces and data schema to ensure that they meet needs, today and tomorrow, at the lowest possible total cost of ownership.



The flexible PLM Environment

Future Proof Your Investment While Maintaining Your Competitive Edge

The PLM Modeling Tool included within Matrix10 allows companies to protect their investments while maintaining their competitive edge. This allows organizations to utilize the business process best practices inherent within Matrix10, while allowing the flexibility to easily configure processes, interfaces and data schema to ensure that they meet their needs, today and tomorrow, at the lowest possible total cost of ownership.

Matrix10
The Flexible PLM Environment

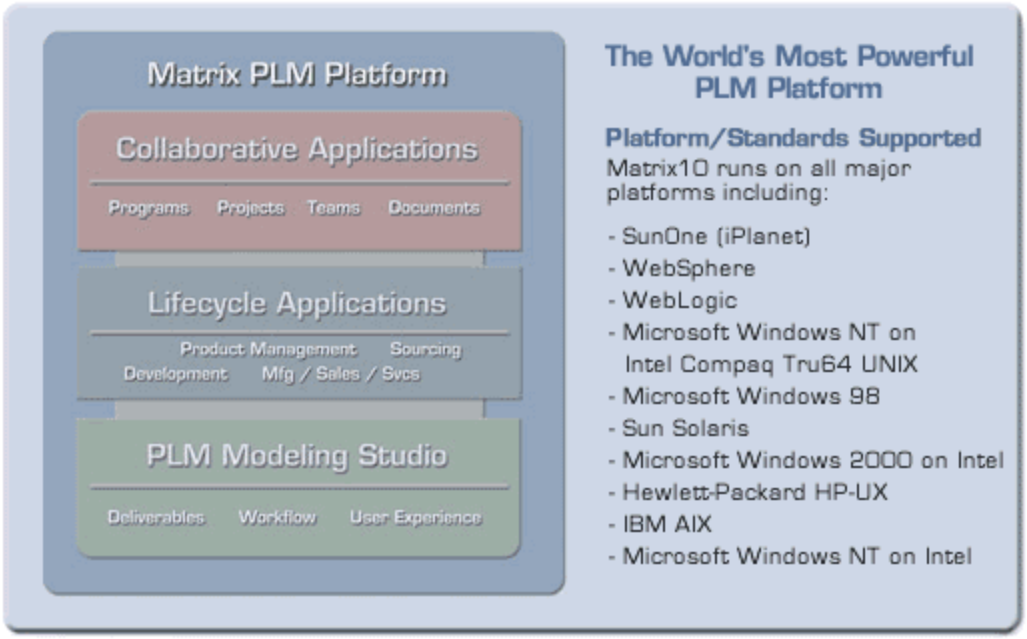
The Matrix PLM Platform

Mitigate risks to achieve transformational success with the complete PLM solution "backbone."



The flexible PLM Environment

The World's Most Powerful PLM Backbone

The Matrix PLM Platform serves as the foundation for the overall Matrix10 environment and is the underlying engine for Matrix10's applications, modeling capabilities and integrations that are built on top of it. A proven, standards-based offering, the PLM Platform has been designed to support global, enterprise-wide deployments, and is equipped with the industry's highest level of performance and a robust level of security, making it the perfect solution to customer needs regardless of industry.

Matrix10
The Flexible PLM Environment

Enterprise Interoperability

Robust Integration Capabilities
Matrix10 represents the industries most open and adaptable PLM backbone with dozens of off-the-shelf integrations and technologies to enable seamless data sharing between third-party enterprise applications and desktop authoring tools including leading MCAD, ECAD and software development applications.

Integration Products		
VisView	Documentum	SolidWorks
Solid Edge	Lotus Notes	MicroSoft Office
MicroStation	DOORS	Pro/E
Pro/I	Clearcase	AutoDesk Inventor
Catia v4	VPM	Catia v5
UniGraphics	iMAN	Mentor Graphics
Cadence	CV CADDS	Innoveda
JDE World/OneWorld	SDRC IDEAS	Oracle MFG
Baan ERP	ME10	MFG/PRO MFG
Jvue	Solid Designer	Veribest
MIM	XML Exchange	AutoCad
SAP ERP	Info Central	

Matrix10 integration products available in June.
